

Brackets

This year is my first with Web Entry Form. I chose the SIMPLE method. In setting up the Web Entry Form, I listed my email address and listed the title of my WEF. WHAT DO I LIST IN THE "REDIRECTED URL" space? I emailed the 25- 30 people that do the pool at work and the link works. I have 3 emails back. I go to the IMPORT feature: WHAT DO I PUT in "copy SOURCE of the emails and paste it below?

For the [URL](#), put in the link to where you want your users to go after they have submitted the form.

The source of the email is the **TEXT** of the email. All you really need is the text after the line that reads: "OfficePool Managers, Select & Copy the following for import"

Unique solution ID: #1057
