

Reports & Templates

What is the "Final Four Compact Format on Standings" preference all about?

Final Four Compact Format on Standings: If checked the following apply on the Standings reports (Field names will need to be manually updated accordingly):

- Final Four-1 -> Champ
- Final Four-2 -> 2nd Place
- Final Four-3 -> Final Four
- Final Four-4 -> Final Four

In addition, if using this option, the following three fields must be de-selected as they will contain meaningless data: Picks-Champ, Picks-Finals-1, Picks-Finals-2.
