

General

Do I need the company version? What differences are there?

If you are running a company or corporation-sponsored pool, then, yes, you will need to purchase the company license. While there are no differences in the actual application for single user or company, we will not be able to support a company run pool unless this license is purchased. Some customers also like to give a little extra to help support the development and server costs for OfficePool and this option allows them to do so.
