

# Reports & Templates

## How do I change the look and feel of the Web Entry Form?

There are templates that can be edited directly within OfficePool or copy/paste contents into an [HTML editor](#).

To access this template select the **Reports -> Edit Templates** menu item and select one of the templates that begin with "Web Entry Form" from the "Template to Modify" popup menu on right side of window.

Unique solution ID: #1058
