General Usage

statbook mac version 3.2.2
mac os 10.5.8, intel based processor
baseball
ERROR:
database error 19
Stat.Batted may not be NULL

I entered my team of 17 players and was 'playing' with the software before my season starts. I added a new player to my roster, then I tried to add him to a game. This is when the error occurred.

Any ideas?

Mark

This has been fixed in version 3.3.
