How To's

Is there a way to run a report filtered for just overall league games?

Yes. There are multiple ways to do this but the easiest is to update the Additional Instructions area of a duplicated report. Here's how to do this:

1. Duplicate the "Overall - Exhibition" and/or "Overall - Pitching (Exhib)" reports (Reports -> Duplicate Report)
2. Edit the new report (Reports -> Edit Reports... menu item or double click on the report)
3. Under the "Additional Instructions" section (left-side) change Where g.GameType="Exhibition" to Where g.GameType="League". (You should also change the title above)
4. Select the "Save & Return" toolbar menu
5. Save the file
