Players and Roster

When I add a new player they do not appear in the game data entry forms or in the reports. How do I add a new player during the season?

After you add the new player (Players -> Add Player menu item), follow these steps:

- 1. Select this player in the Roster list.
- 2. Go to the "Games" area and select the games you want that player (or players) to show up in.
- 3. Select the "Games -> Add Players to Selected Games..." menu item.
